TIPS FOR GETTING STARTED

1. Be creative

What do YOU want to portray? Select a theme from the list provided and start thinking of ideas.

2. Pick an AI image generator

Here's a few free services to get started:

- ChatGPT
- Leonardo AI
- Google Nano Banana

Note: You must create an account to use these!

3. Keep a prompt log & ITERATE!

Make sure you record the prompts you used to create your images. You should have multiple prompts, continuously improving will lead to greater success!

RULES

1. You must submit your own *original work* created using **only public AI tools**.
2. You **must** complete *all submission requirements*.
3. Avoid imitating the style of living artists or use copyrighted characters/brands or IP.
4. Submissions must **NOT** include:
 - hate speech, discrimination, or harassment
 - explicit content, nudity, or graphic violence
 - political propaganda or charged messaging

Incomplete or rule-violating submissions will be disqualified!
